Buying with Shared Ownership?

Shared Ownership is a Government-backed scheme to help you get onto or along the property ladder. The key advantage is that you only need a mortgage for the share you buy, which means you require a much smaller deposit compared to buying on the open market.

HOW DOES IT WORK?

You initially purchase between 25%–75% of the homes market value, you then pay subsidised rent on the remainder.

AM I ELIGIBLE?

To be considered eligible for Shared Ownership your household income must be below £80,000. You cannot buy with Shared Ownership whilst you own another home, however, you can be considered if you are in the process of selling your home.

WILL I NEED TO PAY A DEPOSIT?

You will need a mortgage deposit from 5% of the share percentage you are purchasing.* For example, if the homes market value is £500,000 and you're buying 25% then your proportion will be £125,000. This means you'll need a deposit of £6,250 alongside a mortgage of £118,750. You're also able to own the home in the future, by increasing your share to 100%, this is called staircasing. A panel of specialist and experienced independent mortgage advisers will be provided to you. Any of these firms will be able to advise you on the best options available to you, so please ask us to refer you for further advice.

* Shared Ownership eligibility and affordability criteria apply. Speak to our Sales team for more information.
